

# SOLIDEAL

# ALL WHITE RESILIENTS

**New, Longer-Lasting Non-Marking Compound!**

THE NATURAL  
CHOICE

In environmentally sensitive areas such as the medical, food, drinks and paper industries it is essential that floors are kept clean and tires do not stain the surfaces.

The Solideal All White resilient solid tire does not mark the floor surfaces thus reducing cleaning costs.

The cool running, low-rolling resistant natural rubber compounds allow the All White to carry full loads at maximum speeds with optimum tread life thus reducing running costs.

*A much softer ride similar to pneumatic tires!*
